

GOKUL S

MERN Stack Developer

+91 9500483963 | gokulgk0666@gmail.com | linkedin.com/in/gokul006 | github.com/GOKULGK-0666

PROFESSIONAL SUMMARY

MERN Stack Developer with a Computer Science degree and hands-on experience building responsive, scalable web applications using React, Node.js, Express.js, and MongoDB. Completed two web development internships and delivered multiple individual and team-based full-stack projects, including an AI-powered cybersecurity threat intelligence platform. Skilled in REST API integration, full-stack development, and Git-based collaboration, with a strong problem-solving mindset and continuous learning approach.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, Core Java, HTML5, CSS3

Frameworks & Libraries: React.js, Node.js, Express.js

Database: MongoDB

Tools & Practices: Git, GitHub, REST APIs, DOM Manipulation

Soft Skills: Team Collaboration, Peer Mentoring, Debugging, Adaptability

EXPERIENCE

Java Full Stack Developer Intern — AMDOX Technologies

Nov 08, 2025 – Jan 2026

Remote / Online

- Completed an online internship focused on Java full-stack web development and real-world application delivery.
- Built and tested web applications using modern front-end and back-end tools across the development lifecycle.
- Collaborated with the team to understand software development workflows and industry best practices.

Full Stack Development Intern — Cognifyz Technologies

Jun 2026 – Aug 2026

Nagpur, Maharashtra, India (Remote / Online)

- Worked on full-stack development tasks covering both front-end and back-end components of web applications.
- Gained practical exposure to real-world development workflows in a remote team environment.
- Contributed to debugging, feature implementation, and testing across the MERN stack.

PROJECTS

CyberIntel — AI-Powered Cybersecurity Threat Intelligence System

TypeScript | React | Node.js | MongoDB

- Final-year team capstone project focused on AI-driven cybersecurity intelligence gathering and threat analysis.
- Built with TypeScript for type-safe, scalable code across the full MERN architecture.
- Implemented modules for real-time threat monitoring, data visualization, and structured reporting.
- Collaborated in an Agile team environment across system design, development, and testing phases.

E-Commerce Web Application

React | Node.js | Express.js | MongoDB

- Personal project: built a full-stack e-commerce platform covering both front-end and back-end.
- Implemented product listings, cart functionality, and RESTful APIs for core shopping features.
- Designed a responsive, component-based UI with clean state management.

Netflix Clone

React | Node.js | CSS3 | TMDB API

- Developed a responsive Netflix-inspired streaming platform UI with dynamic content fetching.
- Integrated the TMDB REST API to display real-time movie and TV show data, including trailers and ratings.
- Applied React routing and conditional rendering for a seamless multi-page user experience.

EDUCATION

Bachelor of Engineering – Computer Science and Engineering

Nov 2022 – Apr 2026

Mahendra College of Engineering, Salem, Tamil Nadu | CGPA: 7.77

CERTIFICATIONS

- Meta Web Development Fundamentals — Meta
- Google AI Essentials — Google
- The Complete Python Masterclass — Udemy
- Responsive Web Design — freeCodeCamp
- JavaScript Algorithms and Data Structures — freeCodeCamp
